DETAILED ACTION

Notice to Applicant

1. Applicants' Amendment and Response to the Office Action mailed on December 30, 2005 has been entered and made of record.

Response to Amendment

2. In view of applicants' amendment to the claims, the rejection of claim 15 under 35 U.S.C. 112, second paragraph, has been withdrawn.
3. In view of applicants' amendments and arguments filed on May 3, 2006, the rejections of claims 1-13, 15-29 and 32-35 under 35 U.S.C. 103(a) as stated in the indicated Office Action have been withdrawn.

Reason for Allowance

4. Claims 1-13, 15-29 and 32-35 are allowed.

The following is an examiner's statement of reasons for allowance: claim 1 recites depositing a tungsten cap layer having a thickness between about 50 and 200 angstroms on the tungsten bulk layer using a pulsed nucleation layer (PNL) deposition technique. Claim 9 recites depositing the tungsten nucleation layer comprises performing at least one pulsed cycle prior to flowing nitrogen, performing one or more pulsed cycles in the presence of nitrogen, and shutting off the nitrogen flow prior to the final pulsed cycle. Claim 19 recites forming an initial boron layer on the semiconductor substrate; contacting the substrate with a tungsten-containing precursor that is reduced

to form a tungsten layer on the semiconductor substrate; contacting the semiconductor substrate with a silane to form a layer of silane. These features in combination with the other elements of the claims are neither disclosed nor suggested by the prior art of record.

Claims 2-8, 10-13, 15-18, 20-29 and 32-35 variously depend from claims 1, 9 or 19, so they are allowed for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
